

# Anthony Mitchell Rodriguez

## Full-Stack Web Developer

I'm a Full-stack web developer leveraging retail, marketing, real estate, and sales background to build quality user experiences in mobile and web applications. Recently earned a certificate in full-stack development from UCF, enhancing my skills in responsive web design JavaScript, React.js, Node.js, MongoDB, MySQL, and more. Passionate about creating life-enhancing user experiences and collaborating with others to develop meaningful mobile and web applications. Positioned to provide unique perspectives on how end-users interact with websites and software platforms by leveraging a background in consumer product goods sales and marketing with industry-leading brands.

University of Central Florida

09/2020 - 11/2020

Orlando, FL

### Paralegal Studies Associate Degree

Valencia College

06/2018 - 12/2019

Orlando, FL

Courses

- IN PROGRESS

### Associates Degree

Valencia College

01/2016 - 05/2018

Courses

- Orlando, FL

## WORK EXPERIENCE

### Realtor

Century 21

10/2017 - 11/2019

Orlando, FL

Achievements/Tasks

- Helping clients find their perfect home by carefully researching market trends, property values, and neighborhoods. Also, the elaboration of a marketing plan for clients designed to attract and address the needs of buyers. Besides, I used to create financial models to evaluate potential new development or investment opportunities for clients. Models include project and portfolio level performance and structured finance. Such financial models evaluated property investment exit strategies with operating costs/revenue and income streams.

### Stock Supervisor

Tommy Bahama

01/2016 - 06/2019

Orlando, FL

Achievements/Tasks

- Supervises and coordinates activities of workers concerned with ordering, receiving, storing, inventorying, issuing, and shipping materials, supplies, tools, equipment, and parts, in storage. Also, studies records and recommends remedial actions for reported unusable, slow-moving, and excess stock. Traces history of items to determine reasons for discrepancies between inventory and stock-control records and recommends remedial actions to resolve discrepancies.

## TECHNOLOGIES

HTML

CSS

JavaScript

JQuery

MySQL

Node.js

Express.js

MongoDB

React.js

MDBootStrap

Bootstrap

Postman

DBeaver

Robo 3T

## PERSONAL PROJECTS

### GROWTH (10/2020 - 11/2020)

- We believe in inspiring our customers to fulfill their destiny as enthusiastic plant nerds and observant naturalists. We cultivate our staff, clients, and neighbors to develop the ever more vital primordial bond between humans and plants. Here in GROWTH, our users are going to be able to research any species of plants, and we will provide a full report about your choices explaining every possible detail. Users are going to be able to create their own garden by saving their searches, and it would be displayed on their profile to have better pictures of their dream garden. Add, deleted, and update your garden. Our users are going to be able to update their garden and see their growth.
- <https://github.com/AnthonyMitch/Growth/>

### The 80/20 Rule (09/2020 - 10/2020)

- In the fitness calculator user will input age, weight, height, and gender to get calorie goal depending on the users exercise regiment. Then in the calorie calculator the user can input what they ate for breakfast, lunch and dinner. The calculator add all three meals together to get the users total caloric intake for the day to help them stay on track for their goal.
